Assessor Comments	An excellent opportunity to purchase years of breeding and quality. The "Lakeside" flock has been classed year on year to only retain the most productive sheep. Emphasis is based on fertility, staple length, growth rates and 18-20 micron. These is 38 years of breeding in this flock with 22 years on Gum Hill Blood and 28 years on Centre Plus Blood. The older ewes have had lambs weaned off 3 weeks ago and all of the sheep off shears 3 weeks ago. These ewes are on the do and ready for the Ram of your choice. In a normal season wether lambs are all sold as suckers to kill. Quality sheep awaiting a new home.
