Assessor Comments	A line of quality 2.5 year old Dohne ewes which present to store to forward condition and were shorn in September. These ewes averaged 63kg at assessment. Having lambs weaned off them throughout October, these ewes are fertile, with some still presenting with an udder. Coonong has focused on producing robust, easy care, versatile, clean bodied sheep, with a bare breach. These DD and Calga blood ewes are a good article for turning off lambs for either the trade or export markets. These young ewes have come through a drier season but are on the do and ready to join to the ram of your choice with all the hard work done. Please note the single delivery day. The vendor has another 4 lines in the same sale.
