Assessor Comments	This line of quality ewe lambs on offer are showing excellent traits of the of Eyre UltraWhites breeding programme. Only being offered to make way for more lambs on the ground. There are some clean shedders in the line with majority still holding onto their wool on sides and top line, with very clean breaches and bellies, with some in forward condition and majority in good condition. These quality future breeding ewes are ready to be joined soon. Other information from the Vendors below. These ewe lambs were sired by single-copy Eyre UltraWhite GDF9 carrier rams, and they carry proven genetics for higher lambing percentages through more twins. Safe, reliable fertility gains that lift future flock productivity and profits.
