Skin Comment

Beautiful clean well nourished skins

Wool Comment

Wool displays excellent even attributes as photos show. Wool is clean, dense, well nourished and defined. Our wool consistently averages 75mm at 7-8 months shearing.

Vendor Bred

Yes

Stock History

Grogansworth Bood for 20 years. Vendor annually buys in the top 5%% of their sale. The last 3 years vendor has been purchasing similar genetics at Pemcaw for the same sound results.

| Any Access To Rams<br>or Stags? | To vendor's best knowledge, this lot has had no access to rams or stags.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |            |          |
| Assessor Comments               | Outstanding quality line of NSM 2022 drop merino ewes. Ewes present in ideal joining condition and are a direct result of years of fastidious breeding. Classed annually by Michael Elmes they are even and show excellent quality wool attributes. Small amount of Pemcaw genetics would be through this line of ewes. Vendor is a passionate merino breeder who has had excellent results through his breeding program via fertility, wool quality and growth in his progeny. Excellent opportunity to acquire genuine young females of mainly larger frame. Ewes stand in healthy mainly forward condition. Vendor Scans annually with dries always removed. Please note vendor dispersing their entire grown flock. Front paddock ewes which would suit any breeder. Please view video to fully appreciate the quality of these ewes. Please call for further information. |            |          |
