Assessor Comments	This is an excellent line of Chromedale Blood Jakabul ewe lambs. This is the entire drop of ewe lambs out of a particular management group with the tail removed. They are in excellent condition, and have the maturity and condition to join up this season. The Jakabul flock is renowned for breeding a very hardy and efficient sheep, that produces a solid and neat trade weight lamb at a young age. The Jakabul flock is very fertile and adult ewes consistently wean 140% lambs. These ewe lambs are Gudair Vac and come highly recommended.
