Comment on Fat Score 1 Sheep

Very strong, large frame, healthy 1 score ewes. I would say the 1 scores were feeding twins or triplets. Will be strong enough to travel.

Assessor Comments	This is a very fertile and productive mob of easy care Merino ewes. They have a reasonable amount of wool on them and if shorn before joining and on good feed there is no reason why these ewes won't produce as good a lambing percentage (125%) as they did this year. With the amount of wool these ewes have it will definitely offset the purchase price so you will have income before joining of these ewes. They are in very good body condition at the moment considering the lambing percentages - 125%. 3 other mobs of lambs out of these ewes from vendor, assessments 10031149, 10031152, 10030961
