Assessor Comments	An excellent line of young merino ewes in great condition. These ewes were purchased to keep but due to change of management they are up for sale. They are bred by Blyth Merino genetics which target medium framed plain bodied merinos producing a luscious 18/19 micron fleece. Blyth merinos have ceased mulsing 4 years ago and are successfully breeding plain body unmulsed ewes. These are an excellent line of young ewes in great condition and would be a great addition to your flock
