Assessor Comments	112 VGQ HGP Free Vendor Bred Droughtmaster Cross Steers. Majority Exhibit Medium to Large Bone, Length, Depth and Frame for their age. Ideal Steers to grow out to Feeder weights with majority having the capacity to make good Bullocks. They are Quiet, have Good Feet & Tidy Heads. They were 100% weighed & assessed after 14 hours off water & 18 hours off feed so would expect that to be a realistic curfew applied. They will be fed GQ Rhodes Grass Hay, as well as being tailed out during the day with Vendors Heifers until delivery. Carisbrooke has some Prickly Acacia in seed, however Steers are being fed in yards until delivery (in hand for over 1 week) so should pass most viable seed. Would appreciate a prompt pickup as Steers are being fed in the yards. Happy to sign any Grassfed paperwork if required as they have not received any lick or antibiotics.
