Easy Steers to handle in the yards, they had a bit of run in them at first but settled after a while. To be fair they were run in straight off crop and assessed. A few played up in the crush but nothing unusual there. The videos was taken after they had been assessed so that will tell the story. Overall well handled cattle that have yard weaned, worked through the yards						

Handled With	and a rotational grazing system. Bikes , Dogs , Horses , On foot , Vehicles
Notable Traits	Traits 3 Head Small amount of white under the flank.
Assessor Comments	94 Very good quality steers that are on the move . Steers that have the frame and scope to put a lot of weight on. Landfall bulls have been introduced in the last few years and you can see the length and conformation coming through in the steers.The cows have been selected with a focus on growth, conformation and temperament. The vendor has another lot of steers also in this sale and the tail has been taken out. NOTE Depending on truck configuration the 94 should fit onto a b double, under our fit to load obligations we will hold back some if necessary.
