Assessor Comments	With the uncertainty of seasonal conditions, buyers have an opportunity to purchase a superb line of well bred Shorthorn heifers. Cattle comprise of top-end Shorthorn genetics, with heifers sired by Sprys Golden Rod T83 out of a stud base herd of Outback Shorthorn cows. They are an article that would suit multiple avenues, such as a feedlot program, trade market

or to join to a breeding operation to utilise their impeccable breeding. Sires are purchased with high emphasis on high growth rates, temperament, docility and structural integrity, with these heifers being a prime example of all. Heifers have a great reputation with repeat buyers as they are proven to excel and provide in whatever avenue you choose. A tail has been removed ensuring a genuine lead draft. Vendor also has another 20 steers on offer in the same sale. Buyers please note that due to the lack of feed, the vendors have decided to prioritise the calves and keep them unweaned until delivery.
