	Heifers flowed and travelled well from pens, down laneways and through yards. Heifers had previously been inducted through facility and given the current warm northern climate handled the pressure of weighing, drafting and mouthing well. Heifers at times became sticky to move but once give the opportunity to move off, they looked and were easily managed.			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles			
Assessor Comments	Here is an opportunity to secure a very even line of 144 (4.5 Decks) of quality Brangus and Brangus Cross heifers bred in the ticks and northern climate. Heifers that are worthy to be joined and used within a breeder herd or excel in the paddock on crop or pasture or continue on as quality grain finished heifers. Vendor is willing to guarantee heifers Clean/Tick Free. Heifers can be scratched on farm and return to the paddock in QLD. If cattle need to cross state border and a dip/swim is required, purchaser to cover freight to certified facility and dipping costs associated.
