The heifers are well handled and easy to move without excessive bunching or anxiety in a relatively small yard. They block up well and require normal steadying through gates, the pound & race. The majority were very calm stepping off the scales although some were unsettled whilst being mouthed with only a handful eager to exit quicker. Calm & inquisitive, free moving when walking through the yard for photos showing normal flight zone. The Mt Cornish cows are quiet & well handled.

Assessor Comments Good quality Santa & Santa cross feeder or breeder replacement heifers from a large frame herd of quality Santa & Santa x cows. The Mt Cornish herd are noted performing cattle having infused top quality Santa genetics over large frame quality Shorthorn cows over many years targeting the feeder and weaner market. Very clean and tidy around the head - a classy line of future breeders. There are a small number (3) branded #5 that were missed at their respective weanings. 84 mouthed as milk tooth, 4 just erupting 2 teeth & 22 fresh 2 tooth.
