	A well educated mob of Heifers that efficiently flowed through the yards and race during assessment. The odd Heifer became agitated on the scales however once back in the mob was quick to settle			
Handled With	Bikes , Dogs , On foot , Vehicles			
Assessor Comments	61 Droughtmaster/Droughtmaster cross weaner heifers that range from 202 to 306kg to average 237kg at assessment. Heifers present in majority store condition whilst displaying all the right attributes to take them forward to domestic feeder markets or replacement breeders. They were very good to handle through the yards and are all sired by Western Red & Rondel Droughtmaster Bulls out of medium to large frame Droughtmaster/Santa Cross cows. At assessment the tail was drafted out making this a very even run of heifers with all the hard work already done. Please note the vendor also has another lot of weaner steers in the sale.
