Assessor Comments

Buyers this is a great opportunity to secure a VGQ Bdouble line of vendor bred Angus & AngusX steers in store condition drafted specifically to suit the 75% Angus market. These steers are out of large framed Angus & AngusX cows sired by high priced Raff , Eastern Plains and Lawson Angus bulls and show great length/depth & bone and great weight for age. The Revilo steers have a great reputation and are highly sought after when normally sold as Feeders, they will perform on grass or grain and would also the Woolworths Domestic feeder market as they were drafted into 300_400 kg weight spec , or alternatively taken through to grass Jap ox as they are all HGP free antibiotic and grain free and lifetime traceable to suit all Pasture fed programs. Please note two steers observed with slight blight scarring in one eye not considered detrimental and two steers with white under belly. These steers come highly recommended and present good compensatory gains. Vendor has coloured brothers this sale.
