	Steers worked well through the yards with only a couple slightly stirring up in the crush that quickly settled when rejoined to the mob.The temperament of these strs is a credit to the vendors as they were a pleasure to handle even though it was their first time back through yards since weaning.

Assessor Comments	Buyers this is a great opportunity to secure a VGQ 3 deck line of Vendor bred #5 Santa/Angus/Charolais X store condition steers. These steers are out of large framed Santa, Simmental & AngusX cows sired by high priced Santa, Angus and Charolais bulls and show great length/depth & bone and great weight for age. The Revilo steers have a great reputation and are highly sought after when normally sold as Feeders, they will perform on grass or grain and would be ideally suited to the Woolworth Domestic feeder market as they were drafted into 300_400 kg weight spec ,or alternatively taken through to grass Jap ox as they are all HGP free antibiotic and grain free and lifetime traceable to suit all Pasture fed programs. Please note one steer observed with slight blight scarring in one eye not considered detrimental. These steers form part of a total mob of 180 & will be drafted on a run out the basis into 2 X 3 deck lots strs come highly recommended and represent good compensatory gain.
