Assessor Comments	Buyers, here is a great opportunity to purchase weaned light weight Angus cross steers with plenty of compensational weight gain averaging 236kg. Steers weighed between 210kg to 260kg. These steers have great frame and stand on good bone ready to fill out. Steers show nice muscle with good length of body and depth of flank. Steer's are bred out of medium to large frame Brahman composite cross cows by stud Angus sires. These steers are extremely quiet and well handled both in and out of yards. Note 5 steers had old blight scaring but not detrimental. Note these steers are being sold as run out the gate of 2 lots of 125 & 84.
