Assessor Comments	Here is a very well bred line of good quality purebred droughtmaster steers. These steers are by RSVP and Sylvan Springs Stud bulls out very good quality Droughtmaster stud cows. These steers are presenting in good store condition showing plenty of frame and compensatory weight gain. The steers worked extremely well throughout the yards and have had a lot of handling which showed throughout the assessment. These steers would be ideally suited to grow out to a heavy feeder or bullock job. If you are looking for good quality steers ready to put on kg in a hurry look no further than these. These steers have been bred and raised in ticky country. They have had 2 treatments for ticks for easier clearance to tick free areas.
