	Very Good to handle in their own familiar environment and yards. Videos and photos a fair reflection with cattle needing to be forced a little to video.

Assessor Comments	A nice line of EU Speckle Park steers. 75 head of a tight range 425-490 kg .A nice line of steers showing plenty of quality as expected from an outstanding herd. Considered these easy to handle with loads of potential. In the run of 75 head there was 2 head in mob showing an old eye scar but not considered detrimental. 1 showing an old ringworm. Well handled and they look primed to perform quickly on good feed & crop. 17 head show all black coats of Angus or Speckle Park heritage. A nice line of steers suitable to feed or graze with the capacity to suit all HQ domestic & Export markets.Minnamurra has had considerable success in many feedlot and carcase trials and these come with strong recommendations.
