Quiet: 102 head Slightly Stirry: 16 head	Quiet: 108 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

The cattle in this lot all handled through the yard and the assessing process with ease. The cattle listed as slightly stirry are only uneasy when singled out of too much pressure is applied, these cattle settle quickly when reintroduced into the mob.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Notable Traits

	Traits
28 Head	Ring worn scaring

Assessor Comments	An opportunity to purchase a line of quality weaner heifers in store condition with ample compensatory weight gain on offer. The heifers in this lot display great softness, bone, length and femininity making them ideal to grow out to suit the breeder paddock or meet domestic feeder markets. These heifers have had all the hard work done with quality education and handling as well as being backed by quality genetics. These heifers are ideal to lock up over the wet season and will bounce ahead on some fresher feed given the opportunity. There is a number of heifers with ring worm scaring present however this is considered not detrimental to their health and can be easily solved with a pesticide treatment. The vendor is only selling these cattle as they have missed recent rain events and need to sure up feed for breeding stock. Please not this vender has 2 lines of weaners in the same sale.
