Assessor Comments	Offering 80 good quality Angus and Angus Cross Steers. The steers averaged 337kg live at assessment after being yarded the day before with no access to feed or water. The steers are majority branded No.5 with only 8 head of No.4 steers sighted. They are sired by NB Genetics Angus bulls that are selected for early growth and carcass traits. The steers are very quiet to handle and are currently not carrying excess condition, with plenty of compensatory gain for the purchaser. Please note 3 steers were sighted with old blight scarring, 5 with light scur and one with small white patch underneath. Don't miss this opportunity to secure a well-bred line of backgrounder steers that have had all the hard work done and are ready to power away.
