Comment on Fat Score 1 Cattle Cattle are all strong and healthy

Vendor Bred No  
 Vendor has owned stock for 6-12 months  
 Stock History Vendor purchased a very good line of cows and calves in February and paid above market prices at the time to buy quality  
 Lifetime Traceable 100% of cattle in this lot are Lifetime Traceable

Grazing Conditions Have been bunk trained for the past 40 days on a silage and cotton seed ration.  
 Returned same

Burr/Seed in Coat No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status Treated with 400 day compudose

Vendor Comments A quality line of predominantly crossbred steers we are proud to present. They have been fed a light ration to maintain growth and not lay down too much fat. Cattle are growing nicely and ready to hit green feed and perform.

| Assessor Comments      | <p>This is a high-quality line of predominantly crossbred steers that have been bunk trained on a diet of light silage and cottonseed ration. The steers are currently in a condition suitable for returning to the paddock on fresh feed. In July at weaning the steers were given a 400 day compudose HGP. The vendor is willing to provide a guarantee that the cattle will pass the dipping process if destined for clean country. The steers were sourced as cows and Calves earlier this year, with the stock purchased at the top end of the market at the time to ensure quality was prioritised. This represents a quality line of cattle that would be a valuable addition to any herd. They are very well educated and a pleasure to work with. If you have any questions, please do not hesitate to contact me.</p> |                                                                                                                       |                                                                   |
| Assessor               | <b>Joshua Heck (Level 2 Accredited)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                       |                                                                   |
