Assessor Comments	VGQ Vendor bred Angus Heifers on offer. These heifers present in forward store condition after excellent winter season in Cunnamulla. Bred from top quality Pharo PCA Angus genetics by large framed Angus and Angus Cross cows. They have been running on flooded and Mitchell grass country with cows in excellent condition and being western bred would expect to flourish in all conditions. These heifers would be very much suited to a breeding operation if desired. Heifers were weaned approx 3 weeks ago and have been broken in well as they were a pleasure to handle with a great temperament. These heifers would really kick away on quality feed with summer and drier seasonal conditions currently. There are 2 x other lots in same sale from Vendor and 1 x other lot in district that may help with trucking.
