Assessor Comments	A line of 27 predominantly F2, with a small number of F3, Wagyu cross heifers presenting in store to fresh condition. The line includes 5 heavier heifers which were the tail end of the previous drop, carried over after being too light to join at the time. Heifers are well handled and educated, with the lighter types beginning to freshen in the coat as nutrition improves. Sired by RAE Wagyu bulls out of quality F1 & F2 Wagyu Angus cross cows, the heifers display sound structure and growth for age. Heifers weighed to average 229kg and will suit a growing operation for future feeder or breeder programs.
