	Good	68%	
	Fair	4%	
Temperament	Yards	Crush	Paddock
	Quiet: 25 head	Quiet: 22 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Steers were very good to handle in the yards. Most were nice and quiet while in the race and crush with three steers becoming slightly agitated in the crush and exited quickly. All settled once back in the yard together and all remained quiet when being photographed. The vendor runs a cell grazing operation and steers are used to electric fences. Vendor handles stock using Low Stress Stock Handling techniques.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A mostly good quality line of Shorthorn and SH Cross EU accredited steers. With 60% medium frame and 40% large frame, they suit to take to the heavy end of EU export feeder weights and then finish for a range of grass or grainfed markets. They also suit to take directly onto feed for the domestic market with a LWR of 305 - 376 kg full weight. The steers were yard weaned in April 2025 using LSSH techniques and have been treated with 7 in 1, two Pestigard injections & a Multimin. Please note three steers have slight blue eye in one eye while one steer has a moderate blue eye spot in one eye - see photo. Please note the two horned steers in the photos were tipped after assessment and will still be healing at delivery. They have not had access to grain and are eligible for a range of grass finished programs. These steers are nice and healthy and will continue to move ahead on good feed.		
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608		
Delivery Period	17/11/2025 to 21/11/2025 (5 days)
