Vendor Comments

Nice line of purchased Angus x Angus steers. Steers are in that right condition to power forward and target a heavy export feeder job in January

	Great run of angus x angus steers. These steers are naturally quiet and worked well throughout the assessment process. They move smoothly when pressure was applied and released.

Assessor Comments	Here is a great opportunity to purchase two decks of Angus x Angus steers. These steers are on some sweeter native country. At assessment these steers weighed 292 - 377kg FULL to average 334kg. These steers would suit multiple options - background for heavy export or domestic feedlot entry or carry through to target an MSA domestic kill. These steers have all be purchased locally through A+ allowing the vendor to be selective on their purchases. All these steers received a backline on induction. They were easy to move through the yards. The job is looking positive, and these two decks have been drafted into tight weight specs to buy with confidence. Three steers had a slight weeping eye and were treated with Opticlox eye ointment.
