Assessor Comments	Offered is a nice even line of 51 weaned Angus heifers. These Mundarra Blood calves are 11-12 months and were weaned back in Autumn. Despite a challenging winter they are now bouncing away and picking up on fresh spring grass. Heifers were weighted out between 200-261kg, stand on plenty of frame, are cleaning up in the coat and will continue to perform given the opportunity. Please note the vendor has another lot of heavier weaner heifers offered in the same sale providing the opportunity to put 76 one-mark heifers together.
