	As seen in videos once heifers had been through assessment and were back in their mob with no pressure on them, they were lovely and quiet to walk amongst and film. Whilst being assessed, they were put through a round yard and into a force, when this was happening there were heifers in the mob that became slightly agitated and stirry when confined in these smaller yards. But nothing aggressive in anyway, just wanting to escape when pressure applied.		
Handled With	Bikes , Vehicles		
Notable Traits	Traits 4 Head Slight blemish/blue eye scarring in one eye only		

Assessor Comments	On offer is a quality line of NSM EU Accredited Angus heifers that are pure Bongongo blood. This is the first year in quite some time that the vendor has not retained any heifers to breed from, so this a great opportunity to obtain front paddock cattle with excellent genetics. This line of heifers weighed 380-485kgs LW. They have plenty of frame and upside, and are in excellent condition to feed on if purchased to do so. Vendors purchase top quality bulls from Bongongo Angus and their drop of steers each year are often first over the tryline at feeder weights in the local area. Please note vendor has another lot of heifers in same sale, cattle come highly recommended and please call assessor for any further information.
