Assessor Comments	EU ACCREDITED Angus Steers. The Nankervis family have over 25 years of Alpine Angus bloodlines, with no expense spared on genetics with a focus on above average growth and carcass attributes. Now focusing on some new bloodlines, these calves are by top quality Aarden Angus bulls & AI Knowla Superior S44. They display length, good bone and shape, presenting in fresh store condition. Weaned early given the tough seasonal conditions, but were well looked after with supplementary feed. Proven performance cattle with repeat buyers operating to purchase these cattle annually. A great opportunity to purchase quality backgrounding steers that would suit any operation. The temperament of these steers was excellent, with the cattle a pleasure to handle.
