Comment on Fat Score 1 Cattle

Very sound strong forward store to fresh condition.

Vendor Bred

Stock History

Lifetime Traceable

Bloodlines

Yes

5 family brands

100% of cattle in this lot are Lifetime Traceable

From the Latrobe Droughtmaster herd. A small number from cows purchased cows in recent years.

Grazing Conditions

Lightly shaded & scattered timber, soft Mitchell grass downs country with good quality Mitchell grass and summer herbages in a rotational regenerative grazing management system.

Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

Temperament	Quality Grades		Store Condition		Paddock
	Yards		Crush		
	Docile: 35 head		Docile: 20 head		Temperament not assessed in Paddock
	Quiet: 65 head		Quiet: 71 head		

Slightly Stirry: 2 head

Slightly Stirry: 11 head

The steers are very good to handle when moved throughout the yard to draft & weigh moving freely without any rush or need to block up. The steers were a little agitated when isolated in the crush and head bail for mouthing otherwise display the typical quiet temperament of the Latrobe herd.

Handled With

Bikes , Horses , On foot , Vehicles

Assessor Comments

Very good quality Droughtmaster steers 23 to 24 months. CERTIFIED ORGANIC, USDA & NATIONAL ACCREDITED & EU. The Latrobe Droughtmaster stud & commercial herd carry a great reputation as noted performing cattle in all markets. Steers that have have experienced very favourable seasonal conditions and are expected to perform well either on grass or feed. I cannot emphasis enough the general good nature of these cattle, they are exceptional quality with length, bone, shape and frame to grow out further - Highly recommended. 4 family brands. The photos shown are the lightest 125 steers as assessed and drafted across the scales due to yard space. There are 23 marginally heavier steers in these photos, The photos depict a true and accurate representation of the lot offered otherwise. Due to the larger number assessed the curfew time ranged from 12-21 hours , the cattle were off feed and water for that period so have had a large curfew.
