Temperament	Yards	Crush	Paddock
	Docile: 5 head Quiet: 32 head Slightly Stirry: 3 head	Docile: 5 head Quiet: 31 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

The heifers are very good to handle when moved throughout the yard to draft & weigh moving freely without any rush or need to block up. They were a little agitated when isolated in the crush and head bail for mouthing otherwise display the typical quiet temperament of the Latrobe herd.

Handled With	Bikes , Horses , On foot , Vehicles
Assessor Comments	Good quality Droughtmaster feeder or joiner heifers 35 to 39 months. CERTIFIED ORGANIC, USDA & NATIONAL ACCREDITED & EU. The Latrobe Droughtmaster herd carries a great reputation as noted performing cattle in all markets. Heifers that have experienced very favourable seasonal conditions and are expected to perform well either on grass or feed. I cannot emphasis enough the general good nature of these cattle, they are exceptional quality with length, bone, shape and frame to grow out further - Highly recommended. 5 family brands. The photos depict a true and accurate representation of the lot offered. Due to the larger number assessed the curfew time ranged from 12-21 hours , the cattle were off feed and water for that period so have had a large curfew.
