Assessor Comments	Offering 110 British and Crossbred heifers. These heifers were 249kg live at assessment. The heifers vary in condition but are mainly strong store condition with plenty of compensatory gain. The heifers are bred from a mixture of cows that were purchased in by the vendor and also a portion of vendor bred heifers. This is a nice two deck line of soft flatback heifers that have been weaned back in October and are not carrying excess condition. Please note two heifers were noted with blight eye scarring, attached photo of the worst one. Please note the same vendor has another two decks of steers in the same sale.
