Assessor Comments	73 Angus x Angus NSM Future breeder Heifers. Heifers are VB, grassfed, antibiotic free, & lifetime traceable. Heifers have been running on native buffle and herbage country still presenting in forward to prime condition despite a drying off season. These heifers are bred out of quality bred Hazledean & JK Angus blood heifers. Only selling due to being a heifer from a first calf heifer with no track record these heifers have more than enough class to suit any Angus commercial breeding program. Buyers note 2* heifers with pink eye scarring. Buyers an excellent opportunity to secure a premium run of heifers before the Christmas shutdown.
