| Assessor Comments      | Very good quality Angus weaner heifers , by Booroomooka bulls , these calves show plenty of bone and thickness and will go on to make terrific breeders or take on to kill weights or feedlot. A grass fed declaration is available on request. These calves handled very well from drafting to weighing and should perform predictably in any situation                                                |
