	commercial cows, these steers are grass fed and antibiotic free and present in good healthy order displaying all the desired attributes of the angus breed. Given the opportunity on either feed or pasture these steers will quickly develop already showing good weight for age. 1 steer had a very small amount of white up under his flank. There was no pink eye present in any of the cattle on day of assessment, this time of year however pink eye in the area is not uncommon. Please note vendor has 24 heifers also available for purchase in this sale.
