Assessor Comments Buyers presenting a 2 deck line of milk tooth PTE crossbred feeder heifers . A mix of Vendor bred and heifers purchased as weaners in the winter of 2025 that have achieved great weight gains since spring storms .Ideally suited to the Domestic feeder market as they were drafted into a 320-420 kg weight range,alternatively most have the style and composition to be an asset in most breeder herds as replacements.Please note one heifer observed with slight blight scarring in one eye not considered detrimental.
