Goombie weaners are highly regarded for the quietness and being well educated through the yards. Considering the very hot conditions at assessment heifers were very well behaved.
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles
Assessor Comments	Buyers an opportunity to buy 4 decks of VGQ PCAS eligible Droughtmaster X weaner heifers. These weaners have all the right bloodlines and genetics and are best described as medium to large frame relative to age. Weaners have been weaned for over a week to three weeks at delivery and are very well educated by vendor through yards. A very reputable line of cattle for sale that will be ideal to put away on grass and grow out to heavier weights. Heifers would suit to keep on as future breeders or background for feeder market as they show plenty of bone, length and confirmation. At assessment there was 3 x heifers noticed with some old ring worm scarring not seen as detrimental also there is only 2 x heifers with horn longer then 2 inch the rest are only small buds. Note 2 x family brands in this line.
