Handled With	These steers were really gentle to draft. They penned up well and flowed up the race well. The few that were not settled in the crush settled quickly when back with the mob. They have been very well handled by the vendor with horses' dogs and bikes and have been mustered and moved since weaning a number of times. They were a lovely quiet mob to walk through and take photos with no sign of panic or flight				
Assessor Comments	A light 2 decks of ripping soft cross bred steer with a hand full showing more brahman content. These are very well-handled steers on offer here. All the hard work has been done are all in healthy store condition and ready to power ahead on good feed. They are a mix of breeds and would suit the feeder market or would certainly grow out to be bullocks. These cattle have the genetics perform well and past sales show they do. They are very well handled and easy to work with. They have been pretreated on 9/12/25 for tick with Starmec injectable. It was noted that 1steers have a small white cloud on his eye. These steers sisters are in the same auction and would make up 3 decks.
