Assessor Comments	This is a high-quality line of flatback heifers that have been bunk trained on a diet of light silage and cottonseed ration. The heifers are currently in a condition suitable for returning to the paddock on fresh feed. The vendor is willing to provide a guarantee that the cattle will pass the dipping process if destined for clean country. The heifers were sourced as cows and Calves earlier this year, with the stock purchased at the top end of the market at the time to ensure quality was prioritised. This represents a quality line of cattle that would be a valuable addition to any herd. If you have any questions, please do not hesitate to contact me.
