Assessor Comments	A good quality line 58 HGP FREE Brahman steers are on offer. They have plenty of bone and stretch to take through to feedlot or heavier kill weights. Steers mainly all non vendor bred (Identified with white tags in ear) however, some are vendor bred and are identified with a bang tailed. Steers with white tags have been blooded so will have no trouble going back to ticky country, they have also have had their second dose of 5 in 1 by the previous owner but unsure of date. A great line of weaned Brahman steers that will continue to move forward and be a quality asset to any steer trade or export operation or to suit any market. Buyers note vendor has another lot of steers in same sale.
