Assessor Comments	A great opportunity to secure some very highly regarded southern genetics, the second draft of a run of Te Mania Angus blood heifers from a long-established team Te Mania herd. Originally purchased as vendor bred weaners from Glencoe Farm Trust from the Mortlake area earlier in the year, well renowned for their marbling capabilities these Te Mania blood heifers make for perfect future breeders but also tick all the other boxes relating to all other grass fed or feeder markets. Heifers came out of very dry conditions in the south and have turned inside out with the help of a fantastic spring here in the New England thus presenting in great condition and stand at early joining weights ranging from 278 to 312 kg full at assessment. A great smaller line of heifers ideal for breeding in the future or backgrounding. Please see another two lines of heifers from the same mob in this same sale.
