Handled With	The BTH herd have had extensive handling and these calves displayed excellent temperament characteristics throughout the assessment.			
	On foot , Vehicles			

Assessor Comments	20 tops of the drop,***NO Heifers retained*** excellent quality weaned Angus heifers. Based on a very successful 80% conception rate, these calves are principally AI daughters to Chiltern Park Moe M6. Displaying excellent growth and weight for age considering one of the tightest seasons in the North East, these calves have weaned easily and are a pleasure to handle. Often enjoying repeat buyer competition at local weaner sales, these heifers represent a great opportunity to secure top class genetics, ideal temperament and quality to take them through as quality future breeders, grass fattened cattle or background for any of the feedlot specifications.
Assessor	Oliver Mason (Level 1 Accredited)
