Assessor Comments	10 very good quality weaned Angus heifers. AI bred to Chiltern Park Moe M6 and backed up with Jade Park R72. Displaying excellent growth and weight for age considering one of the tightest seasons in the North East, these calves have weaned easily and are a pleasure to handle. Often enjoying repeat buyer competition at local weaner sales, these heifers represent a great opportunity to secure top class genetics, ideal temperament and quality to take them through as quality future breeders, grass fattened cattle or background for any of the feedlot specifications.
