	Quiet: 24 head	Quiet: 21 head	Temperament not assessed in Paddock
	Slightly Stirry: 4 head	Slightly Stirry: 6 head	
	Stirry: 1 head	Stirry: 2 head	
	Cattle are run in large mobs and haven't had a lot of experience in the yards. When being pushed through the race and on the scales, cattle showed limited signs of distress, with only a small percentage becoming agitated. Steers were respectful when being blocked and stayed in close proximity when being photographed. Considering these steers are only freshly weaned, they behaved well and will continue to settle with age and regular handling.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head White under belly		
Assessor Comments	Buyers, the opportunity has presented to purchase another draft of the renowned 'Glenmore' weaners. With a lifetime of utilising top-end Rennylea Angus genetics, these steers present in strong, healthy condition displaying the phenotype and		

bone structure that would be ideally suited to target feedlot entry weights grow out into heavy grassfed bullocks. Steers are highly sought after in the area by repeat buyers due to the consistency of the product produced by the breeding operation. Since weaning, steers have averaged just over a whopping 2kgs per day weight gain, reiterating the fact that they are noted-doing cattle that will continue to perform. With the impeccable breeding behind these steers, this is a perfect line of cattle to feed and watch explode. Buy them once and you'll buy them again. Cattle come with the assessor's highest recommendation and can be purchased with buyer confidence. Grass Fed only, Antibiotic Free.
