	Slightly Stirry: 1 head		Slightly Stirry: 4 head	
	These Cows have been properly educated in a large mob and are very quiet to handle in the paddock and in the yards. A very small number became slightly stirry in the crush but settled quickly after re-joining the mob. Handled with low stress stock handling practices.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 5 Head White on udder			
Assessor Comments	An outstanding uniform line of Registered Stud Lawson Angus Blood cows that will commence calving for from the start of April to late May. Joined to high indexing registered Lawson Angus Bulls (T999/T204/S1007). All cows are bred from an AI program using multiple select sires including Gardiners genetics from the US and boast impressive breed plan data (Days to calving, IMF and the Index's sit in the top 25% as a mob average). These cows have traditionally calved very easily and present in ideal condition to take forward. An excellent proposition for a producer to take on as a stud mob for future breeding or to add/commence the inauguration of a new herd. N.B Breed plan data also available
