Assessor Comments: An outstanding line of 40 x 40 EU accredited, pure Rennylea blood cows and calves. The Parkinson family have been using Rennylea bulls for over 15 years, putting particular focus on IMF (Bull ESBVs attached) and 400-day weight when selecting sires. Cows are 4yr old, large frame, that present in prime condition and are a credit to the vendor and proven grass performing genetics given how tough an Autumn/Winter we have had locally. Excellent opportunity to secure award winning genetics with the Parkinson family steers last year winning Grand Champion pen of 3 in the 'National Carcase Competition' at Beef Week 2024 with one of those steers also winning champion individual carcase. Buy with confidence as these units will complement or elevate any breeding herd. Please note: These Cows & Calves were assessed as a line of 67 being sold as a run out the gate & mothered in lots of 40 x 40 and 27 x 27. Highly recomended.
