Assessor Comments	A very tidy 3 deck unit of Commercially accredited Droughtmaster cows from the highly regarded "Telemon Droughtmaster" commercial herd. PTIC to stud and commercial sires all having performance recorded data and PP genetic tested. A fantastic opportunity to purchase a line of highly fertile, polled cows with proven genetics for fertility, growth and temperament having been bred for more than 50 years with these key indicators in mind . 100% reds and honeys and almost entirely polled or scurred heads these cows will slot neatly into most breeding herds. Highly functional and fertile cows with moderate to large frame, excellent temperament and good conformation. PTIC 6 to 16 weeks in calf to Droughtmaster sires these cows would be an asset to most breeding enterprises and boast some of the highest regarded Droughtmaster genetics in the north.
