	Heifers are fairly well educated. Worked pretty well through a less than ideal set of yards. They are well mannered and quiet in the yards, however quite a few did become agitated in the race and head bale.			
Handled With	Bikes , Dogs , Horses			
Notable Traits	Traits 1 Head Slight Brindle coat			
Assessor Comments	A good and very good quality, line of Charbray PTIC heifers in their last trimester. Tidy about the heads, good framed, well mannered future Breeders. Joined to Angus and Charbray bulls, with their whole lives in front of them, they will make useful breeders for many years to come, or alternately an opportunity to calve out and sell on. Please note a number of these heifers have a triangle ear mark as used in HGP treated animals, but vendor is adamant all heifers are HGP free and are being sold as such. Vendor has a further 38 PTIC heifers in the same sale which may help with freight.
