	Heifers are fairly well educated. Worked pretty well through a less than ideal set of yards. They do appear a bit reluctant to take a lead at times and can be a bit sticky.			
Handled With	Bikes , Dogs , Horses			
Notable Traits	Traits 1 Head Brindle coat			
Assessor Comments	Good and very good quality, Santa and Santa cross PTIC heifers in their last trimester. Joined to Angus and Santa bulls, with their whole lives in front of them, they will make useful breeders for many years to come, or alternately an opportunity to calve out and sell on. Please note a number of these heifers have a triangle ear mark as used in HGP treated animals, but vendor is adamant all heifers are HGP free and are being sold as such. Vendor has a further 42 PTIC heifers in the same sale which may help with freight.
