| Assessor Comments      | A nice line of young Angus cows and calves Cows have been very fertile and previously produced very good calves. Cows are in store condition but are milking well and have well grown calves at foot by the Larrikin Angus bulls. Two cows show more condition than the balance having access to crop for longer. Given the right opportunity these cows should continue to develop and mature into nice females. Cows have been running back with the same bulls since calving.
