Grazing Conditions

Burr/Seed in Coat

HGP Status

No

Purchased ex AuctionsPlus, as a larger line of PTIC heifers, out of OAKEY district QLD. Calved down by the vendor & mothered into smaller lots. All heifers have calved unassisted, to a very even drop of fresh Angus sired calves.

Unknown

Heifers purchased in lines out of Inglewood QLD, as yearlings & joined to Angus bulls by the previous owner, with mixed Angus bloodlines.

Ripening forage Barley crop, with drying off Clover & Vetch throughout.
Returned same

Odd BATHURST BURR on tail brush

The owner declares that the cattle have not been treated with HGP at any period of their lives

			Slightly Stirry: 2 head	
	Easy to handle heifers. 2 heifers were unsettled whilst being mouthed, but quickly calmed down when released from the crush.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 4 Head 4 calves treated with Orbenin at assessment for pinkeye infection in one eye 3 Head Slight white on udders/ extending up underline/flank on 3 cows 1 Head Very slight white marking on underline/navel of 1 heifer calf			
Assessor Comments	A good line of quiet Angus & Angus cross heifers, on their first calf. This line of 1st calvers were purchased ex AuctionsPlus, as part of a larger consignment of PTIC heifers out of OAKEY district QLD, before being calved down & mothered into smaller lines. Heifers present as mostly well grown with good frame and sleek coats. They are producing a good supply of milk, which is nourishing an attractive line of marked & vaccinated Angus sired calves at foot. Presenting in very fresh condition, these heifers possess a good amount of stretch and robustness associated with the addition of the ultrablack infusion in the breeding, whilst maintaining all the desirable Angus traits of carcass shape and softness. These heifers represent a well balanced fusion of high quality carcass traits and fertility combined with the stretch, sleekness & adaptability to a versatile range of grazing environments. Great opportunity to replace old breeders with 1st calvers at favourable changeover rates
